

Carterton Recreation Ground Performance Area

DESIGN COMPETITION

Carterton Recreation Ground is undergoing some big changes.

A brand new play area is already being built, and there will be a new performance area constructed in the centre of the park.

This will be used as a space for bands, plays, exhibitions, but will also be a place to sit, meet, chat...

GET INVOLVED!

Community College pupils are invited to come up with a design for this area. Work on your own design or in a group.

The winning design will be selected by a panel including pupils from the school.

Your ideas will be turned into a professional design, and built this year.

For more information and a full brief see Mr Masih, Head of Art.
